### Personal Details

Lecturer, Graduate advisor of DLPU. Born in Jilin Province and born on September 4, 1981

B.S., Polymer Material and Engineering, Jul. 2005, Northwest Polytechnical University, xi'an, China

PhD, Materials, Dec. 2010, Northwest Polytechnical University, xi'an, China

### Research Direction (Field)

The main research direction is the study on the structure and properties of fluoroplastics and biodegradable polyester. In the past several years, he participated in a number of projects, such as National Natural Science Foundation, National High-tech R&D Program (863 Program), Dalian Construction Commission Program and so on.
